

The Crown 'Orchard'

New for 2009, the Orchard is inspired by the 'rondavel' round houses of South Africa. Here you get a sumptuous combination of the exotic and the traditional designed to complement a wide range of garden styles.

The Orchard is perfect for entertaining (8-10 people) especially with its solid round wooden table and deep-cushioned benches. And because it's hand-crafted in the UK from cedar, it doesn't just look fantastic, it's designed to last and last.
